AUDA StreetScape Update

September 7, 2011

CONSTRUCTION PROJECT UPDATE

From September 7th-14th, please anticipate construction work to continue between Elder's Station & Pine Street on Lincoln Way. Hansen Brothers has completed the trenches for the dry underground utilities allowing PG&E to begin pulling cable through the conduit to the junction boxes and private services; this work is anticipated to be completed in a week.

Hansen and Hemington Landscape are forming the curb, gutter and sidewalk in front of Wave Broadband and is scheduled to pour concrete on Wednesday and Thursday. The parking lot improvement construction at 1025 Lincoln Way is scheduled to continue this week. Beginning next week, Hansen is expected to continue forming and pouring sidewalk on the State Theatre side of the project.

Hansen Brothers will continue to have traffic control between Elder's Bus Station and Pine Street with one traffic lane open in each direction on Lincoln Way to facilitate the trenching work. The lanes of traffic will shift according to the construction work.

Please anticipate some delays on Lincoln Way. We regret this inconvenience and ask our residents, businesses and visitors to be patient and considerate during the project. The construction will occur over the next three months.

Please remember that businesses are open during construction and there is public parking located on Lincoln Way near Elder's, near Depoe Bay and off E. Placer St.

More information on the Streetscape Phase II Project can be found online at:
